FRACTIONATED LASER

About Piqo:

Fractional Delivery:

The laser is delivered fractionally, which targets only a fraction of the skin at a time, creating microscopic treatment zones. This allows the skin to heal more rapidly as untreated areas remain intact and support recovery

Skin Rejuvenation:

- Improves skin texture and reduces the appearance of fine lines and wrinkles.
- Minimizes the size of pores and reduces acne scars.
- Promotes a more even skin tone and overall skin brightness.

Pigmentation Removal:

- Effective for treating various forms of pigmentation such as sunspots, age spots, melasma, and post-inflammatory hyperpigmentation.
- Breaks down the pigment into smaller particles, which are then naturally cleared by the body.

Benefits:

- **Minimal Downtime:** Due to the fractional nature and rapid pulse of the laser, there is minimal downtime compared to traditional laser treatments.
- Suitable for most skin types.
- Perfect for summertime treatments.
- Anti-Aging, skin revitalization.

Dysport 10% OFF

Dysport is a cosmetic injectable used to reduce the appearance of wrinkles and fine lines, particularly on the forehead and around the eyes. It contains botulinum toxin type A, which temporarily relaxes the muscles that cause wrinkles.

- Purpose: Smooths out dynamic wrinkles like frown lines (glabellar lines) between the eyebrows.
- Procedure: A quick, minimally invasive treatment where small amounts of Dysport are injected into targeted muscles.
- Duration: The effects typically appear within a few days and can last up to 3-4 months.
- Recovery: Minimal downtime; patients can usually return to their normal activities immediately.

Dysport provides a smoother, more youthful appearance by reducing muscle activity that causes wrinkles.

Filler - 15%OFF (1ML Syringe)

Fillers are injectable substances used in cosmetic procedures to add volume, smooth wrinkles, and enhance facial contours. They are commonly used for:

- Plumping Lips: Adds volume and shape.
- Smoothing Wrinkles: Fills in lines and creases, such as nasolabial folds and marionette lines.
- Enhancing Cheeks: Restores lost volume for a more youthful appearance.
- Jawline Contouring: Defines and sharpens jawline and chin.
- Under-Eye Hollows: Reduces the appearance of dark circles and hollows.

Dysport/Filler Giveaway!

Your chance
to win! _____

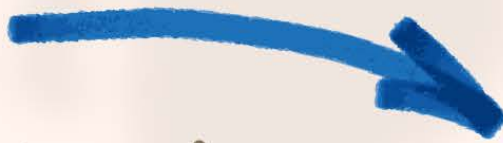

This July, treat yourself to Dysport or Filler and get a chance to win even more!

Here's how it works:

When you purchase Dysport or Filler during the month of July, you will be automatically entered into a drawing for a chance to win your choice of either 25 Units of Dysport or a Filler (1ml syringe).

Mark your calendar! The lucky winner will be announced on August 1st. Don't miss out on this incredible offer! Enhance your beauty and stand a chance to win even more of your favorite treatments.
