PACKAGE OF 3 SKINPEN

70% Off

SkinPen is an *advanced* **microneedling treatment** that offers numerous benefits for those looking to improve their skin's appearance. Whether you're dealing with fine lines, wrinkles, acne scars, or uneven skin texture, SkinPen provides a safe, effective, and minimally invasive solution to help you achieve healthier, more radiant skin.

SkinPen PRP (Platelet-Rich Plasma) is a popular non-surgical cosmetic procedure that combines microneedling with the application of PRP to enhance skin rejuvenation.

Platelet-Rich Plasma (PRP) is a component of your blood that contains a high concentration of growth factors and proteins, which are essential for healing and tissue regeneration. PRP is derived from a small sample of your own blood, which is processed to separate the platelets from the other blood components.

SCLEROTHERAPY

20% OFF

Sclerotherapy is a medical procedure used to treat varicose and spider veins. It involves injecting a solution directly into the affected veins, causing them to collapse and eventually fade. The procedure is minimally invasive and requires no significant downtime. Sclerotherapy is effective for most people, providing visible improvement in appearance.

nbx
wellness

As students prepare to go back to school, boosting immune health becomes crucial due to increased exposure to germs and close contact with others. Using products like those from NBX Wellness can help fortify the immune system, potentially reducing the likelihood of falling ill during the school year. Implementing these supplements into a daily routine can be a proactive step in ensuring a healthier and more resilient immune response.
