Amazing Savings All Month Long

Dysport 10% OFF

Dysport provides a smoother, more youthful appearance by reducing muscle activity that causes wrinkles.

- **Purpose:** Smooth out dynamic wrinkles like frown lines (glabellar lines) between the eyebrows.
- **Procedure:** A quick, minimally invasive treatment where small amounts of Dysport are injected into targeted muscles.
- **Duration:** The effects typically appear within a few days and can last 3-4 months.
- **Recovery:** Minimal downtime; patients can usually return to normal activities immediately.

Filler 15% OFF (1ml Syringes)

Fillers are injectable substances used in cosmetic procedures to add volume, smooth wrinkles, and enhance facial contours. They are commonly used for:

- **Plumping Lips:** Adds volume and shape.
- **Soothing Wrinkles:** Fills in lines and creases, such as nasolabial folds and marionette lines.
- **Enhancing Cheeks:** Restores lost volume for a more youthful appearance.
- **Jawline Contouring:** Defines and sharpens jawline and chin.
- **Under-Eye Hollows:** Reduces the appearance of dark circles and hollows.

Glutathione

Glutathione is a powerful antioxidant naturally produced by the body and plays a key role in protecting cells from oxidative stress, supporting the immune system, and aiding the liver in detoxification.

Glutathione helps neutralize free radicals, supports healthy aging, and is essential for overall cellular health.

Tri Immune

Tri-Immune is a powerful immune-boosting blend designed to help protect your body, increase energy, and support overall wellness—especially during cold and flu season or times of high stress. It contains **Vitamin C** to strengthen the immune system and support collagen production, **Zinc** to help fight off illness and promote faster healing, and **Glutathione**, the body's master antioxidant, to reduce oxidative stress and support detoxification. Together, these three ingredients work synergistically to keep your immune system strong, support faster recovery, and help you feel your best.

Vitamin B - 12

supports energy production, brain function, and metabolism while helping reduce fatigue and support a healthy nervous system.

Vitamin D

supports immune health, bone strength, and mood while helping the body absorb calcium and maintain overall wellness.

Plasma Pen 20% OFF any treatment area

The Plasma Pen is very effective in smoothing out wrinkles, tightening eyelids and can lift & rejuvenate any area of the skin.

TREATS ANY AREA, INCLUDING:

- ☒ UPPER AND LOWER EYELID
- ☒ SMILE LINES
- ☒ FOREHEAD LINES
- ☒ NECK LINES
- ☒ MARIONETTE LINES

What is **PLASMA PEN** Skin Tightening?

Plasma is the fourth state of matter. It is generated inside the Plasma Pen when surrounding gases are ionized and a liquified gas is formed as a result. This plasma jumps from the end of a small needle onto the skin, which causes the skin to instantly tighten as we delete skin cells and stimulate collagen production.
