### *What is Sculptra?*

Posted Date: 12/04/24

Share on Social Media

Sculptra is a type of injectable collagen stimulator made from poly-L-lactic acid (PLLA), a biocompatible and biodegradable substance that has been used safely in medical devices for years. Unlike dermal fillers that provide immediate volume by filling wrinkles, Sculptra works by stimulating your body's natural collagen production. Over time, this gradual process helps to restore the skin's structure and volume from within.

The treatment is typically used to address areas such as the cheeks, temples, jawline, and nasolabial folds (smile lines). It is not just for filling wrinkles, but for restoring a more youthful and refreshing appearance by adding subtle, natural-looking volume.

#### Why People Choose Sculptra

There are several reasons why someone might consider Sculptra as an option for skin rejuvenation:

##### 1. Long-Lasting Results

One of the most attractive features of Sculptra is that its results are not only natural-looking but long-lasting. Unlike some fillers that offer immediate volume but may require frequent touch-ups, Sculptra results develop

## SCLEROTHERAPY

Sclerotherapy is a medical procedure used to treat varicose and spider veins. It involves injecting a solution directly into the affected veins, causing them to collapse and eventually fade. The method is minimally invasive and requires no significant downtime. Sclerotherapy is effective for most individuals, providing a noticeable improvement in appearance.

# MYERS' COCKTAIL IV THERAPY

***Recharge your body from the inside out with our popular Myers' Cocktail—a powerful blend of essential vitamins and minerals designed to support overall wellness and vitality.***

## Potential Benefits

- Helps alleviate stress and fatigue
- Supports and strengthens immunity
- Restores nutrient balance
- Provides deep cellular hydration
- Helps reduce migraines and headaches
- May ease chronic pain and muscle tension

## What's Inside

- **Magnesium (Mg)** – Supports relaxation, muscle function, and stress reduction
- **B-Complex Vitamins** – Boost energy levels and support metabolism
- **Vitamin B12** – Aids in energy production and nervous system health
- **Calcium (Ca)** – Supports muscle function and overall balance

Whether you're feeling run down, stressed, or want to optimize your wellness, the Myers' Cocktail is a great way to give your body what it needs—***fast and efficiently.***

RECHARGE YOUR  
BODY FROM THE  
INSIDE OUT!

## SKINPEN/PRP

A micro-needling device is used to remodel the skin by creating temporary microscopic channels in your skin. This simple procedure activates your body's natural skin-healing power to increase collagen and elasticity, so your skin returns to a healthier-looking and youthful appearance. Adding in the Platelet Rich Plasma (PRP) treatment containing a concentrated source of platelets will release various growth factors for substantial rejuvenation to your skin. Growth and repair continue for up to 1 month after your treatment.
