March Simply Beautiful Medical Spa & Wellness

NEWSLETTER

“Shot Bar” - 10% OFF

Our Shot Bar offers quick, targeted vitamin injections designed to support energy, immunity, metabolism, and overall wellness. These intramuscular (IM) injections deliver nutrients like B12, Biotin, and other essential vitamins directly into the body for fast absorption.

It's a simple, convenient way to give your body a boost — with appointments that take just a few minutes. Always administered by a licensed medical professional.

IPL Photofacials - 20% OFF

IPL Photofacial provides immediate results improving the skin's appearance! Results include skin tightening, reduced redness and improved texture!

B 12

Vitamin B12 is an essential nutrient that helps support energy levels, brain function, and red blood cell production. It plays a key role in metabolism and overall nervous system health.

B12 injections are often used to help boost energy and are especially beneficial for individuals who may be deficient or have trouble absorbing B12 through diet alone.

Supplemental Vitamin Injections

B-Complex

B-Complex is a combination of B vitamins that support energy production, metabolism, nervous system function, and overall cellular health.

Glutathione

Glutathione is a powerful antioxidant that helps protect cells from damage, supports detoxification, and promotes overall skin health.

Biotin

Biotin injections provide a concentrated dose of vitamin B7 to support healthy hair, skin, and nails.

Ketorolac (Toradol)

Ketorolac (Toradol) is a nonsteroidal anti-inflammatory drug (NSAID) used for short-term management of moderate to severe pain.

NAD+

NAD+ (Nicotinamide Adenine Dinucleotide) is a coenzyme found in every cell that plays a key role in energy production, metabolism, and cellular repair. NAD+ injections are designed to help boost energy, support mental clarity, improve recovery, and promote overall wellness by enhancing your body's natural cellular functions.

Supplemental Vitamin Injections

L-Lysine

L-Lysine is an essential amino acid that supports immune function, helps the body produce proteins, and promotes healthy skin, hair, and tissue repair.

Sunshine Shot (D3)

Sunshine Shot (Vitamin D3) provides a quick boost of vitamin D to support bone health, immune function, and overall wellness.

L-Proline

L-Proline is an amino acid that supports collagen production, helping maintain healthy skin, joints, and connective tissue.

Tri-Immune

Tri-Immune is a combination injection designed to support the immune system, typically containing Vitamin C, Zinc, and Glutathione to help the body fight infections and promote overall wellness.
