Filler (1ml Syringe) - 10% OFF

Fillers are injectable substances used in cosmetic procedures to add volume, smooth wrinkles, and enhance facial contours. They are commonly used for:

- Plumping Lips: Adds volume and shape.
- Smoothing Wrinkles: Fills in lines and creases, such as nasolabial folds and marionette lines.
- Enhancing Cheeks: Restores lost volume for a more youthful appearance.
- Jawline Contouring: Defines and sharpens the jawline and chin.
- Under-Eye Hollows: Reduces the appearance of dark circles and hollows.

Don't Forget... Mother's Day is May 10th!

Dysport - 10% OFF

Dysport provides a smoother, more youthful appearance by reducing muscle activity that causes wrinkles.

- Purpose: Smooth out dynamic wrinkles like frown lines (glabellar lines) between the eyebrows.
- Procedure: A quick, minimally invasive treatment where small amounts of Dysport are injected into targeted muscles.
- Duration: The effects typically appear within a few days and can last 3-4 months.
- Recovery: Minimal downtime; patients can usually return to normal activities immediately.
